# FOREWORD

Many people go through life with a meaningless existence because they fail to recognize the importance of everyday life. This quotation from Shakespeare sums up why everyday life is important. "All the world's a stage, and all the men and women merely players. They have their exits and their entrances, and one man in his time plays many parts." You are always on a stage, and you have the leading role. Your years in school could be considered the rehearsals for your play. It is in school that you develop the kind of character you will play. Every little thing you do is a part of everyday drama.

**Hildur Gunnarsdottir**

This year we are very happy to have Hildur Gunnarsdottir, an exchange student from Iceland, as a member of the class of 1966. She is a very friendly girl and has made many friends among the students and faculty. She was a member of the Senior Class Play and is a member of the Student Council. Hildur's stay here was sponsored by the students.
